-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24, 28-30, 34 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Potucek et al. (US 5,253,934).

3. With respect to claims 24 and 28, figures 2-12 of Potucek teach a supply item (printhead) comprising:

a circuit (31, figure 4A) including a tri-state input port (TDIR) and said supply item **associated with an imaging apparatus**, and said supply item having at least three modes of operation (HIGH IMPEDANCE, HIGH and LOW), wherein a particular mode of operation of said at least three modes of operation is selected based on a signal level of a tri-state input signal supplied to said tri-state input port (TDIR control buffer 31 to have either, LOW logic, HIGH logic or tristate).

4. With respect to claims 29 and 35, the circuit is part of the printhead circuit.

5. With respect to claims 30 and 34, figure 2 of Potucek teaches an imaging apparatus, comprising:

a controller (circuit connected to 31); and

a supply item (printhead) for use in imaging apparatus including a circuit having a tri-state input port (TDIR) coupled to said controller, said supply item having at least three modes of operation (HIGH IMPEDANCE, HIGH, LOW), wherein a particular mode of operation of said

at least three modes of operation is selected based on a signal level of a tri-state input signal supplied to said tri-state input port by said controller.

***Allowable Subject Matter***

6. Claims 25-27 and 31-33 are allowed.

7. The following is an examiner's statement of reasons for allowance:

With respect to claims 25 and 31, in addition to other elements in the respective claim, the prior art does not teach an apparatus having a D Flip-flop having a D input, a clock input and a Q output, said D input being tied HIGH, said clock input being coupled to a tristate input port, and said Q output being coupled to a first output port.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

8. Applicant's arguments with respect to claims 24-35 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Don P. Le whose telephone number is 571-272-1806. The examiner can normally be reached on 7AM - 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Barnie Rexford can be reached on 571-272-1812. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
